SUMMARY

HTML5, which is like the language websites speak. I use it to structure and organize content on the web. I enjoy making things look good and work smoothly.

I have got a knack for using CSS3, and its framework like Bootstrap which is like the stylist for websites. It helps me add colors, arrange things neatly, and make everything visually appealing.

JavaScript, which is like the magic wand for websites. And frameworks like jQuery and AOS Animation that give me added cool features, make things move around, and create a lively experience for users.

I know how to use responsive design to ensure that the website adjusts and stays user-friendly, no matter the screen size. Excited to create websites that everyone can enjoy, no matter what gadget they're using!

Practice knowledge in WordPress site, using the page builder plugin Elementor. Creating a full dynamic site using the WordPress Elementor which can be easily backendmanageable.

PROJECTS

DIGITAL FLOW

<https://mdumar22.github.io/digital-flow-bootstrap>

This is totally created with HTML5 & CSS3, and Javascript Frameworks Like Bootstrap and AOS Animation and also compatible with mobile.

MODERN DESIGN

<https://mdumar22.github.io/digital-reposite/>

This is totally created with HTML5 & CSS3, and Javascript AOS Animation Its structure is made with CSS FlexBox and fully compatible with mobile.

BIX

https://mdumar22.github.io/biz_reposite_templete/

This is totally created with HTML5 & CSS3, and Javascript Frameworks Like Bootstrap and AOS Animation and also compatible with mobile.

EXPERIENCE

E-commerce Website | Ardent Computech Pvt.Ltd (21/9/23—19/10/23)

During my internship at ARDENT COMPUTECH PVT.LTD, I had the opportunity to work as a Web Development Intern, where I collaborated with the development team to build and maintain web applications. My responsibilities included front-end development tasks such as creating responsive layouts, implementing user interface designs, and optimizing website performance. I gained hands-on experience with HTML, CSS, JavaScript, and JQuery and various front-end frameworks like bootstrap .

EDUCATION

South Calcutta Polytechnic - 2022-present

A diploma in computer science is a specialized educational program that provides me with foundational knowledge and practical skills in various aspects of computer science

Sonarpur Siksha Sadan(High School) - 2021-2022

Successfully completed Secondary Examination with obtained 51%.

SKILL
